UVP Pass

Tourism operators within the Kimberley locality have been advised fee charges will now apply to access native title determination areas and/or individual sites along the Kimberley coast. As a result the fees and consequent increase schedule will need to be passed onto the visitors who will incur additional costs to access country whilst cruising along the Kimberley coast. We support traditional owners and their right to charge to access country and will continue to foster positive relationships to support the development of traditional product in the region which will seek to enrich existing tourism experiences along the Kimberley coast.

Current outcome hosts the native title access fees are yet to be determined and are open to future changes, subsequently we are unable to include these fees in our current cruise pricing. Therefore native title access fees will be charged in addition to the cost of your cruise. We anticipate this to be a short term solution while the government work with industry to negotiate a Kimberley tourism pass with native title groups. Please note the fees apply to numerous native title determination areas along the Kimberley that we access as part of our cruises between Broome and Darwin. For more information on the fee structure, please visit <https://www.wunambalgaambara.org.au/tour-operators-register.htm> Once the fee structure has been advised, we will contact you with the amount for payment. Please note, this will be a direct transfer of cost and all charges will be made in line with Wunambal Gaambara.
